Dr. J. F. Cook was the recipient of the Kiwanis Club of Grayling's annual "Flowers to the Living" award given at a dinner meeting held Monday evening at the Grayling Masonic Temple.

The arrangements were made by Lt. Governor-elect Earl R. Burns who chaired the program. The dinner was served by the ladies of the OES Chapter.

Kiwanis President Don K. Gother opened the meeting following the dinner and introduced the guests among the more than 80 persons who attended the affair. Among the guests were Dr. Cook's parents, Mr. and Mrs. Fred J. Cook of Alpena and his brother and wife, Dr. and Mrs. Hugh Cook of Bay City.

President Gother then called upon Club Treasurer John H. Alet to give a financial statement in order that the visitors might gain some idea of the club's service to the community. According to the report more than \$1,300 will be spent this year by the club for service in this area. Included in this will be the milk fund expense in both Grayling schools plus an enlarged Christmas program for underprivileged children.

The award was made to Dr. Cook by Lt. Governor-elect Burns who presented a Kiwanis award plaque which was appropriately inscribed. Dr. Cook was presented with a large bouquet. The speaker pointed out that Dr. Cook was a charter member of the club, a past president of the club and the man solely behind the Kiwanis Christmas program. The Christmas program several years past was an affair which involved about a single club meeting when Dr. Cook began plans to enlarge it. The project now involves several months of effort in collecting toys and for the high school shop classes to repair with the big punch coming on Christmas Eve when they are delivered. The club combination with the Grayling-Womans Club also distributes needed clothing. Lt. Gov.-elect Burns also pointed out the various civic activities undertaken by Dr. Cook outside of the Kiwanis Club which denotes fine citizenship.

Past Lt. Governors Charles E. Moore and Emil O. Giesling spoke on the program with the former acting as toastmaster.

## Veterans Are Taxpayers Too

How far the government should go in providing free medical treatment for veterans whose disabilities are not connected with their military service is a difficult and delicate problem.

It is unanimously agreed that every possible aid should be given the veteran whose injury or illness is service-connected. That is a basic duty and responsibility of government, and it is a privilege for us to pay taxes to make it possible. But as matters stand now, the government hospitals are largely occupied with caring for those whose troubles have no military origin.

It can be argued that this is owed to all who served their country in war. Yet there is no way to equitably repay those who made sacrifices in widely varying degree while in uniform. A parallel can be drawn of the man who saves another from drowning. How can such a debt be canceled?

In the pure practical sphere, the veterans are taxpayers too. There are now more than 20,000,000 men and women who served in the military forces and the number swiftly increases. If all of them are to be entitled to free medical service, the bill will be staggering—and the veterans, no less than others, will have to pay it.

Finally, the danger in a medical program such as this is that it would become so huge and powerful as to be the dominant factor in the whole medical system of the nation. And then the way to socialized or politically-bossed medicine would be wide open.

These are far-reaching matters, that must not be forgotten in the debate over the veteran problem.

## You're in the driver's seat

for only

\$2,229.88

It's your money, of course—but we'd like to see you make the most of it.

That's why we publish the price of the big Buick SPECIAL here—to make Point #1: you can buy this great performer for just a few dollars more than the so-called "low-price" type.

But Point #2—the smart point—is this:

When you put up those few extra dollars for the Buick pictured here, you're in the driver's seat of a lot more automobile.

You boss extra power—more satisfying power—wallowing Buick Fireball 8 power—highest ever found in a Buick SPECIAL.

You get extra room—a lot more comfortable room—real, man-sized, 6-passenger room—as much room as you get in cars costing hundreds of dollars more.

You enjoy extra satisfaction—more solid satisfaction—in the ride of this big, broad,

road-steady traveler that's cushioned by coil springs on all four wheels, and engineered with all the other costly features of the Million Dollar Ride.

And, speaking of extras—here you get, at no extra cost, a long list of standard equipment that most other cars at or near the price of this Buick charge you for, as "extras" on the bill of sale.

So, as we said—it's your money—and it's your move.

If you're aiming for the driver's seat of a hard-to-beat buy—for a lot less than you think—come in and see us soon.

## High School Group At Sportsmen's Meeting

A group from the Grayling High School Sociology Class attended the last meeting of the Grayling Sportsmen's Club. Although not as large a group attended as was hoped, the affair turned out very well.

Following is a note received by Sportsmen Club President, Eric Post from the class instructor Earl Gierke:

Mr. Eric Post:  
I'm sorry there wasn't a greater representation from the Sociology Class of Grayling High School present at your meeting Wednesday, October 21, 1951 but from the reports I have received from those who were present they derived a great deal of good from the meeting and I believe you have some prospective members. Others from the class who were unable to attend expressed regret and some non-members of the class expressed the desire to attend in case we do pay you another visit in the future.

Again I want to thank you and your committeemen for the privilege of the visit.

Some of the comments that were handed to me are attached.

Comments of 11th and 12th Grade Sociology students of Grayling High School after visiting the Grayling Sportsmen Club meeting of October 21, 1951:

"I enjoyed this meeting very much. I would like to return to find out what action is taken on the dam on US-27 above the bridge. I think this club is on its toes."

"for one enjoyed the meeting very much. We saw a local club in action. There was plenty of humor but the seriousness of questions was considered too."

"I think the object of having us attend an adult club meeting was very good. I noted the good order in which the business meeting was carried out and I especially enjoyed Mr. Welsh's talk."

"I think Mr. Post did a very fine job in conducting the meeting and the business was carried on in a skillful manner."

"I would like to visit this Sportsmen's Club again."

**For a real bargain—get a real truck!**

**SURE**, you can save a few dollars now on a truck price-tagged slightly less than a GMC. But if you want a bargain that will still be a bargain after years of hard truck-work, ask these questions before you buy:

Does the truck give you a GMC's 105 H.P.? That's up to 19% more power than comparable sixes. It hustles a GMC's top loads up tough pulls—without engine strain.

Does it have a GMC's 8.0 to 1 super-high-compression? That gives you quicker getaways—more drive—better mileage. All on regular gas.

Does it offer a GMC's engine-sparing Truck Hydra-Matic? With it, you say good-bye to gearshift wrestling. No more clutch repairs. Maintenance costs shrink.

Does it have the extra protection of a GMC's self-energizing brakes? The extra comfort of a GMC's "Six-Pooter" cab? The handling ease of a GMC's ball-bearing steering action?

If all the answers are "yes," you have a real bargain—a GMC. And there are 19 handsome 1/2- to 1-ton models to choose from. How can you lose?

\*Standard equipment on Package Delivery chassis; optional at moderate extra cost on all others.
